At least five days before the hearing, the Administrator shall mail or deliver a notice thereof to all owners of buildings, sites, structures or objects proposed to be designated a landmark or included within a historic district, as well as to other interested parties, such as neighborhood associations, the Downtown Partnership and the Building Official. The Administrator shall also mail or deliver such notice to all persons and organizations which have previously requested the same. Such notice shall include the time, date and place of the hearing and shall invite interested persons to appear and be heard. The failure of any person to receive such notice shall not invalidate any action subsequently taken on an application. No building, site, structure or object shall be designated as an individual landmark under the provisions of this section if any owner thereof submits a written protest to the Administrator to such designation on or before the date of the public hearing thereon.
5. The Commission shall conduct the hearing according to its adopted procedures, if any, and consistent with Kansas law. During the hearing, the Administrator shall make such recommendations as he or she deems appropriate. The hearing may be recessed from time to time.
6. The Commission may recommend such action as it deems appropriate to the Governing Body, including a recommendation that an application be made for listing on the National Register or the Register of Historic Kansas Places.

The Governing Body may likewise recommend an application for listing on the National Register or the Register of Historic Kansas Places.
8. Within 10 days after adoption of a resolution designating a landmark or historic district, the Administrator shall mail notice thereof to the owners of each landmark so designated, and shall likewise notify the Building Official of such designation.

b. The Commission may recommend and the Governing Body may designate a landmark or historic district which includes a portion of the structures and/or properties under consideration and described in any notice.

c. The Commission may recommend and the Governing Body may amend or rescind designation of a Hutchinson landmark or historic district in the same manner and by the same procedure as is followed in designation of a landmark or historic district.

d. Action on building or demolition permit applications except in cases where the Building Official has ordered a permit be issued to correct a life/safety threat shall not be delayed if the building or demolition permit application was submitted prior to the submission of a pertinent landmark or historic district application. Otherwise, action on building or demolition permit applications pertaining to buildings, sites, structures or objects proposed to be designated landmarks or included within a landmark district shall be delayed until final action has been taken on such designation.

e. The Administrator shall cause to be recorded in a timely manner at the office of the Reno County Register of Deeds a record of any designation of a landmark or historic district, amendment of such a designation or rescission of such a designation.

(Ord. 2016-2, Adop. 3/01/2016)

Sec. 4-306. Maintenance of Landmarks and Properties in Historic Districts.

a. In order to preserve, protect and enhance landmarks and historic districts, such properties should receive reasonable care, maintenance and upkeep. In general, the City encourages, and by other references may require, owners, tenants or lessees to correct deterioration, decay, damage, structural defects and nuisances including:

1. Structural or property features which may fall and injure members of the public or may fall and cause damage to property;

(Ord. 2016-2, Adop. 3/01/2016)

Sec. 4-307. Preservation Easements.

Preservation easements on the facades of buildings designated as landmarks or located within historic districts may be acquired by the City or other appropriate group through purchase, donation or condemnation pursuant to the laws of the State of Kansas. A preservation easement includes any easement, restriction, covenant or condition running with the land designed to preserve or maintain the significant features of a landmark. *(Ord. 2016-2, Adop. 3/01/2016)*

Article IV. Certificate of Appropriateness

Sec. 4-401. When Certificate Required.

a. Nothing in this Chapter shall be construed to prevent the ordinary maintenance or repair of a structure or building.

b. A Certificate of Appropriateness shall be required before the following actions affecting the exterior or interior architectural appearance of any landmark or property within a historic district, as specified below:

1. Any exterior construction, alteration, or removal requiring a building permit from the City.

2. Any demolition in whole or in part requiring a demolition permit from the City.
3. Any construction, alteration, demolition, or removal affecting a significant exterior architectural or historical feature, as specified in the ordinance designating the landmark or historic district. However, such requirement shall not apply to such repairs and preventive measures as are minimally required to prevent additional loss or harm to the structure resulting from damage to the structure by accident or natural causes.
4. Any construction, alteration, demolition or removal affecting a significant interior historical feature, as specified in the ordinance designating the landmark or historic district.

(Ord. 2016-2, Adop. 3/01/2016)

Sec. 4-402. Applications for Certificate of Appropriateness.

a. Applications for review of construction, alteration, demolition or removal for which a Certificate of Appropriateness is required shall be initiated on a form provided by the Administrator. A complete Certificate of Appropriateness application and accompanying materials shall be submitted to the Planning and Development Department. The Administrator will review the application and determine if the proposed work can be reviewed administratively (minor project) or if review is required by the Landmarks Commission (major project). Said determination shall be made based upon the City of Hutchinson Project Review List for Historic Resources. In cases where Landmarks Commission review is required, said application shall be submitted no less than 15 days prior to the scheduled meeting of the Landmarks Commission.

b. In cases of Demolition by Neglect, a Certificate of Appropriateness shall be considered by the Commission in accordance with the provisions of this Chapter.

(Ord. 2016-2, Adop. 3/01/2016)

Sec. 4-403. Review Process.

a. Landmarks Commission Review (Major Project)

1. A Certificate of Appropriateness for a project requiring Landmarks Commission review shall be submitted to the Administrator, who shall prepare a report and make a recommendation to the Commission. The Commission shall review the application and recommend approval, approval with conditions, or denial within 45 days of the receipt of the complete application. The Administrator shall notify the applicant of the Commission's decision along with the Certificate of Appropriateness in the case of approval, and provide a copy to the applicant and the Building Official. If no action has been taken by the Commission within 45 days

following receipt of a complete application, a building permit may be issued by the City for the project.

2. The Chair of the Landmarks Commission may appoint a Design Review Committee to assist applicants with project design. The Design Review Committee may be comprised of present and former members of the Landmarks Commission, as well as other members of the public with a specific area of expertise related to Historic Preservation. Said committee shall be authorized to make recommendations for modifications to projects that would make them compatible with the *Secretary of the Interior's Standards for Rehabilitation* in advance of the Landmarks Commission meeting.

b. Administrative Review Project (Minor Project) – A Certificate of Appropriateness for a Minor Project shall be reviewed and approved or denied by the Administrator. The Administrator shall notify, in writing, the applicant and the Building Official of the decision regarding the project. If no action has been taken by the Administrator within 15 days of receipt of a complete application, a building permit may be issued by the City for the project.
(Ord. 2016-2, Adop. 3/01/2016)

Sec. 4-404. Denial of Certificate of Appropriateness.

a. A denial of a Certificate of Appropriateness shall be accompanied by a statement of the reasons for the denial. The Commission or Administrator shall make recommendations to the applicant concerning changes, if any, in the proposed action that would cause the Commission/Administrator to reconsider its denial and shall confer with the applicant and attempt to resolve any differences as quickly as possible. The applicant may submit an amended application that takes into consideration the recommendations of the Commission or the Administrator.

b. Any person dissatisfied with a determination by the Administrator or Commission concerning a Certificate of Appropriateness may file an appeal to the next higher authority within 15 days of the date of notification of that determination. The order of authority for appeals shall be: 1) Administrator, 2) Landmarks Commission, and 3) City Council. Appeals shall require a public hearing and be acted upon within 30 days of receipt of the appeal. Should the appeal fail to be considered within 30 days, the appeal shall be deemed granted.

(Ord. 2016-2, Adop. 3/01/2016)

Sec. 405. Standards for Review.

a. In considering an application for a Certificate of Appropriateness, the Commission and the Administrator shall use the *Secretary of the Interior's Standards for Rehabilitation*, in addition to any design criteria in this chapter, or other criteria adopted

by the City or in the ordinance designating the landmark or historic district. The *Secretary of the Interior's Standards for Rehabilitation* are as follows:

1. A property shall be used for its historic purpose or placed in a new use that requires minimal change to the defining characteristics of the building and its site and environment;
2. The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided;
3. Each property shall be recognized as a physical record of its time, place and use. Changes that create a false sense of historic development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken;
4. Most properties change over time; those changes that have acquired historic significance in their own right shall be retained and preserved;
5. Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a historic property shall be preserved;
6. Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical or pictorial evidence;
7. Chemical or physical treatments, such as sandblasting, that cause damage to historic materials shall not be used. The surface cleaning of structures, if appropriate, shall be undertaken using the gentlest means possible;
8. Significant archeological resources affected by a project shall be protected and preserved. If such resources must be disturbed, mitigation measures shall be undertaken;
9. New additions, exterior alterations, or related new construction shall not destroy historical materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale and architectural features to protect the historic integrity of the property and its environment;
10. New additions and adjacent or related new construction shall be undertaken in such a manner that if removed in the future, the essential

form and integrity of the historic property and its environment would be unimpaired.

(Ord. 2016-2, Adop. 3/01/2016)

Sec. 4-406. Design Criteria.

a. The following are specific design criteria used to promote the standards set forth in Sec. 4-405 of this Chapter. The purpose of these design criteria is to encourage preservation of intact significant properties; restoration of significant properties that have already undergone insensitive alterations; and new construction, as long as such complements the existing buildings and streetscapes. It is not the intention of these criteria to discourage new architectural styles.

b. The Commission shall prepare and adopt specific design criteria as it deems necessary to supplement the provisions of this ordinance for the review of Certificates of Appropriateness. The Commission shall prepare and adopt design criteria in accordance with the review standards set forth in Sec. 4-405 of this Chapter. Within each of the designated categories, the design criteria will be applied more stringently to properties of greater significance than those with lesser significance as determined by their respective designation. The Commission may recommend amendments and supplements to the criteria used for review of applications for Certificates of Appropriateness to the City Council. The City Council must first approve additional design criteria not listed in this chapter, and any changes thereto, before the criteria or changes shall become effective.

c. Demolition, Relocation, and Land Surface Change.

1. Demolition in whole or in part of an individual landmark or any contributing or key contributing structure within a historic district shall not be permitted. Exceptions are allowed only if a structure has been substantially damaged through fire or deterioration, and if there is reasonable proof that it would not be economically or physically feasible to rehabilitate. Other exceptions may be allowed if a structure does not possess the integrity, originality, craftsmanship, age or historical significance to merit preservation. However, demolition of past additions which have not gained historical significance and which obscure original elements or facades are encouraged, as long as the intention is to restore such elements or facades. Demolition under this chapter shall be subject to Sec. 21-701, et seq. of the Hutchinson City Code, as amended.
2. Structures should not be removed from their original site. Exceptions will be allowed only if there is substantial evidence that it would not be practical or economical to utilize the building on its present site. If a structure lies in the path of a public improvement project involving the city and if the building is worthy of preservation by virtue of its integrity,

originality, craftsmanship, age or historical significance, relocation may be considered as an alternative.

3. Major and substantial change of land surface within the boundaries of a landmark or landmark district should not be permitted. Exceptions will be allowed only if there is substantial evidence that the change would not be detrimental to the historical and architectural character of surrounding structures, discovered archeological resources or significant landscaping.

d. Signage. All signage requiring a sign permit shall be reviewed in accordance with these regulations. The following criteria shall be used for evaluation:

1. Historic Signs.

- a. Signs that are individually designated as a landmark or specifically described in the landmark designation narrative for a landmark feature or district shall be reviewed in accordance with the provisions of this Chapter.
- b. Signs should be maintained if they are determined to be an original part of the building or if they have acquired significance by virtue of their age, design, materials, craftsmanship, or historical significance.

2. New Signs.

- a. New signs should be designed and placed so as to appear to be an integral part of the building design, in proportion to the structure and environment, and to respect neighboring properties within historic districts and shall be reviewed in accordance with the provisions of this Chapter.
- b. Obscuring or disrupting important design elements is discouraged. Signs should be designed with appropriateness relative to the services of the establishment served.
- c. Illumination of signs should be properly shielded or diffused so as to eliminate glare and be of a low enough wattage to not detract from or set apart the structure.
- d. Descriptive signs as an integral part of the structure are encouraged. Such signs could include building dates, historic descriptions, commemorations, etc.

- e. Free-standing signs may be permitted, if appropriate and necessary to preserve the character of the landmark or landmark district.

e. Accessory Structures and Landscaping-

1. Accessory structures to a designated landmark or within a historic district shall be appropriate to and compatible with the architectural features of the landmark or historic district. Structures accessory to noncontributory buildings within a designated historic district shall be so designed as to not detract from the historical or architectural character of the district.
2. Landscaping for a designated landmark property or for property located within a historic district should be in scale with the landmark or district and should not obstruct historically significant features.

(Ord. 2016-2, Adop. 3/01/2016)

Article V. Certificate of Economic Hardship

Sec. 4-501. Purpose.

A Certificate of Economic Hardship serves as an alternative to a Certificate of Appropriateness wherever a Certificate of Appropriateness would otherwise be required. The purpose of the Certificate of Economic Hardship is to provide relief where the application of this Chapter would otherwise impose undue hardship. *(Ord. 2016-2, Adop. 3/01/2016)*

Sec. 4-502. Application for Certificate.

a. Application for a Certificate of Economic Hardship shall be made on forms provided by the Administrator. Such application may be made in conjunction with, or separately from, an application for a Certificate of Appropriateness or upon the denial of a Certificate of Appropriateness. The Commission shall schedule a public hearing concerning such applications within 30 days of the receipt of a complete application.

b. The Administrator shall assist all applicants in the preparation of applications for Certificates of Economic Hardship. Every reasonable effort shall be made to limit the costs to the applicant and to assure efficient processing of the application. The Commission shall require the submission of financial documents, professional reports, and expert testimony only when they are necessary to review an application.

c. The notification and appeal provisions of this Chapter shall apply to applications for Certificate of Economic Hardship.

d. The Commission may solicit expert testimony or request that the applicant make submissions concerning any or all of the following information before it makes a determination on the application:

1. Estimate of the cost of the proposed construction, alteration, demolition or removal, and an estimate of any additional cost that would be incurred to comply with the recommendations of the Commission for changes necessary for the issuance of a Certificate of Appropriateness.
2. A report from a qualified or bonded person with experience in rehabilitation as to the structural soundness of any structures on the property and their suitability for rehabilitation.
3. Estimated market value of the property in its current condition; after completion of the proposed construction, alteration, demolition or removal; after any changes recommended by the Commission; and, in the case of a proposed demolition, after renovation of the existing property for continued use.
4. In the case of a proposed demolition, an estimate from an architect, developer, real estate consultant, appraiser, or other real estate professional experienced in rehabilitation as to the economic feasibility of rehabilitation or reuse of the existing structure on the property.
5. If the property is income-producing, the annual gross income from the property for the previous two years; itemized operating and maintenance expenses for the previous two years; and depreciation deduction and annual cash flow before and after debt service, if any, during the same period.
6. Remaining balance on any mortgage or other financing secured by the property and annual debt service, if any, for the previous two years.
7. All appraisals obtained within the previous two years by the owner or applicant in connection with the purchase, financing, or ownership of the property.
8. Any listing of the property for sale or rent, price asked and offers received, if any, within the previous two years.
9. Assessed value of the property according to the two most recent assessments.
10. Real estate taxes for the previous two years.

11. Form of ownership or operation of the property, whether sole proprietorship, for-profit or not-for-profit corporation, limited partnership, joint venture or other entity.
12. Any other information considered necessary by the Commission to make a determination as to whether the property does yield or may yield a reasonable return to the owners.

(Ord. 2016-2, Adop. 3/01/2016)

Sec. 4-503. Determination.

The Commission shall review all the evidence and information required of an applicant for a Certificate of Economic Hardship and make a determination within 30 days of receipt of a complete application whether the denial of the application will deprive the owner of the property of reasonable use of, or reasonable economic return on, the property. Written notice of the determination shall be provided in the same manner as notification of a determination concerning a Certificate of Appropriateness. *(Ord. 2016-2, Adop. 3/01/2016)*

Sec. 4-504. Appeal.

Any person dissatisfied with a determination by the Commission concerning a Certificate of Economic Hardship may file an appeal to the City Council within 15 days of the date of notification of that determination. The City Council shall consider and act on the appeal request within 30 days of receipt of the appeal. Should the City Council fail to act within 30 days, the appeal shall be deemed granted. *(Ord. 2016-2, Adop. 3/01/2016)*

Article VI. Demolition by Neglect

Sec. 4-601. Provisions

In the event the Building Official determines that a landmark or a contributing structure located in a historic district is unsafe or dangerous, pursuant to Sec. 21-701, et seq. of the Hutchinson City Code, the following provisions shall apply:

- a. The Building Official shall provide a copy of the posting and notice of hearing to the Administrator. Notification shall follow the process outlined in Sec. 21-703 of the Hutchinson City Code, except that additional time shall be added for Historic Review by the Landmarks Commission.
- b. If the property owner elects to correct deficiencies, the owner shall obtain a Certificate of Appropriateness in accordance with these regulations. If the property owner elects not to correct deficiencies or if the property owner fails to complete the repairs approved by the Certificate of Appropriateness within the timeframe established by Sec. 21-703 of the Hutchinson City Code, the Commission shall conduct a review for Demolition by Neglect.

- c. In the event that the Commission finds that the corrective actions needed to return the structure to a safe condition would impose a substantial hardship on the owner or any or all persons with any right, title or interest in the subject property, then the Commission shall establish a period of 45 days and direct the Administrator to seek alternative methods to preserve the landmark or contributing structure located within a historic district.
- d. If no alternative is found to preserve the structure without undue hardship to the owner, approval of the Demolition by Neglect shall be granted and a demolition permit may be issued.
- e. Any requirements imposed upon an applicant by the Commission under this section may be appealed to the City Council.

(Ord. 2016-2, Adop. 3/01/2016)

Article VII. Administration

Sec. 4-701. Administrator.

The Governing Body hereby appoints the Director of Planning and Development or the Director's designee as the Administrator of this chapter. The Administrator is authorized to enforce and carry out all provisions of this chapter. The Administrator is authorized to develop application forms and establish procedures consistent with this chapter. The Administrator has the following additional powers and responsibilities:

- g. Maintain agendas, minutes and records of all meetings of the Commission, including voting records, attendance, resolutions, findings, determinations and decisions.
- h. Maintain a record of attendance for Landmarks Commissioners at training sessions.

(Ord. 2016-2, Adop. 3/01/2016)

Sec. 4-702. Landmark Determination.

Before the Building Official may issue a building permit for any development designated as a Landmark or located in an Historic District, the Administrator must make a landmark determination as to whether the proposed project requires Administrative Historic Review or Landmarks Commission Historic Review. No structure or property so designated or located may be occupied or used in a different manner unless the Administrator has made a landmark determination and the appropriate level of Historic Review is conducted. Landmark determinations shall not authorize any action not in conformance with this chapter. Landmark determinations shall not constitute a defense in any action to abate an unlawful structure or property. *(Ord. 2016-2, Adop. 3/01/2016)*

Sec. 4-703. Reports.

The Administrator shall be responsible for the preparation of reports as required in this chapter. The reports may summarize the applicable sections of this chapter, describe the historical and architectural significance of pertinent structures and/or properties, indicate the physical condition of the structures and/or properties under consideration, record recent real estate transactions in the neighborhood, list the assessed value of the structures and/or properties under consideration, record whether property taxes have been paid for the structures and/or properties, list positive and detrimental effects on structures and/or properties if an application is approved or if an application is not approved and provide other appropriate data and information. The report also may contain the recommendations of the Administrator. All recommendations shall be made in consideration of the City's comprehensive plan, zoning requirements, projected public improvements and other policies and plans. The staff report shall be completed at least five days prior to the meeting at which the case will be discussed. *(Ord. 2016-2, Adop. 3/01/2016)*

Sec. 4-704. Fees.

For the purpose of defraying processing costs, the Administrator is authorized to require and accept payment of fees for historic review, landmarks designations, certificates of appropriateness, certificates of economic hardship, demolition and clearance permits, appeals and establishment of preservation easements. Such payment shall be made at the time an application is submitted, when review of a case commences or as otherwise specified. Said fees shall be established by the Master Fee Schedule, as adopted by the Governing Body, and may be based upon notification costs, number of structures involved

and other factors that impact processing costs. All fees received shall be placed in the Preservation Fund. (*Ord. 2016-2, Adop. 3/01/2016*)

Sec. 4-705. Enforcement.

a. In the event that an alteration is made to any structure or property or any structure or property is demolished or cleared in violation of the provisions of this chapter, the City may institute an appropriate action or proceeding to prevent or abate such unlawful action. The imposition of any penalty hereunder shall not preclude the City from instituting any proper action or proceeding to require compliance with the provisions of this chapter and with administrative orders and determinations made hereunder.

b. The Administrator shall give written notification of any violation of this chapter to a property owner, lessor, trustee or other legally responsible party. The notification shall describe and explain in clear, precise terms the nature of the violation.
